Advanced UV Protection

Kodak Clean&CleAR UV Lens delivers outstanding protection for your lenses and vision.

Easy-To-Clean
Resists oily smudges, dust and dirt, making the lens easier to clean.

Water Repellent
A super-slick hydrophobic top layer seals the lens, repelling water and dust.

Scratch Resistant
Protects lenses from scratches so they last longer and look better.

Reduced Nighttime Reflections
Reduces reflections for more comfortable night driving.

Improved Appearance
Eliminates distracting reflections and glare visible to others.

5X MORE PROTECTION FROM

BACK SURFACE UV REFLECTIONS*

UV rays are everywhere. Up to 50% of the UV rays reaching our eyes are reflections from the surfaces all around us.

Since UV rays are linked to eye damage and serious ocular pathologies, we need to pay special attention to long-term protection.

Kodak Clean&CleAR UV Lens reduces UV rays entering your eyes, including those normally reflected into your eyes from the rear surface of your eyewear.

*when compared to a standard AR lens coating like **Kodak Clean&CleAR Lens Coating**
