NOW AVAILABLE!

Sun Mirrored Lenses

Exciting new color options in mirrored lenses!

UV and glare protection combine with fashionable mirrored colors to satisfy the many personal tastes and vision needs of your patients.

Available Mirrored Colors

Polarized to provide 100% UV protection.

- **BLUE**
- **SILVER**
- **RED**
- **GREEN**

All colors are available in polarized polycarbonate prescription lenses in digital single vision and full backside progressive designs. See reverse for more details.
Whether your patients enjoy rigorous sports or less strenuous outdoor activities, their eyes need protection. KODAK Sun Lens mirrored products offer a wide range of features and benefits to suit outdoor lifestyles in direct sunlight and bright environments, including:

- Impact Resistant for Sports and Overall Durability
- Glare and UV Protection
- Backside KODAK Clean&CleAR™ UV Lens Coating
- Thin, Light Polycarbonate Material for Comfortable Eyewear
- Super-Slick Hydrophobic Top Coat Repels Water
- Resists Oily Smudges, Dust and Dirt for Easy-to-Clean Eyeglasses
- Choice of Four Fashionable Color Options
- Drill-Mount Friendly Options for Rimless Frames
- Available in Progressive and Digital Single Vision Lens Designs
