

# KODAK Transitions® Lenses — As versatile as you

## CLEAR VIEWING INDOORS

KODAK Transitions Lenses are clear indoors, behind a windshield and at night but adapt as light conditions change to provide the appropriate level of darkness outdoors. KODAK Transitions Lenses quickly adjust back to fully clear indoors.

## LIGHT TINT IN THE SHADE OR UNDER OVERCAST CONDITIONS

Outdoors, KODAK Transitions Lenses automatically adjust to provide a comfortable tint that reduces distracting glare while providing clear vision.

On cloudy days or early mornings when you need protection from UV rays but not a fully dark lens, KODAK Transitions Lenses provide the appropriate shade of darkness to give you the comfort and protection you need.

Progressive Lenses

## SUNGLASS DARK WHEN EXPOSED TO DIRECT SUNLIGHT

Active outdoor lifestyles require vision protection. If you experience eye strain or find yourself squinting in outdoor lighting, KODAK Transitions Lenses are an ideal solution. The lenses automatically adapt to changing light conditions outdoors, getting fully dark when the sun's UV rays are at their peak.

## TWO BRANDS — GREAT PERFORMANCE

The superior optical performance of KODAK Progressive Lenses combine with the #1 photochromic lenses recommended worldwide, Transitions lenses, to enhance your eyewear's functionality. They are available in thin, lightweight and impact-resistant options for comfortable wear and great looks.

## COMFORT AND CONVENIENCE

KODAK Transitions Lenses provide clear viewing, reduced glare and visual comfort light or dark, as you move in and out of the sunlight.

## PROTECTION

Research shows that long term, unprotected exposure to UVA and UVB rays can lead to serious eye conditions such as the formation of cataracts and macular degeneration. KODAK Transitions Lenses block 100% UV rays.

## VALUE

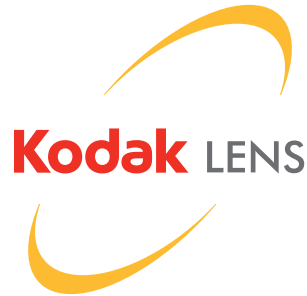

KODAK Transitions Lenses are one of the best everyday lenses for active lifestyles. Indoors or outdoors, they automatically adapt to changing light conditions in order to enhance your vision in every situation. Plus, the light control technology helps reduce eye strain and fatigue.

# Transitions

## KODAK LENSES YOU CAN TRUST

The health of your eyes and the quality of your vision are very important considerations in your choice of eyewear. Your eyecare professional will help you choose the best KODAK Lens for your lifestyle.

NOTE: Photochromic lenses darken when exposed to UV light—windshields and windows can filter out UV light inhibiting the molecular photochromic action.
